The reporting party stated her location and the person said they might have the wrong number as they were trying to contact a male. The person then told the reporting party her name and stated she was based out of LA. The reporting party did not give any details and stopped answering the text messages. She wanted law enforcement to be aware in case someone who is lonely ends up falling for the scam because the person mentioned they wanted to be friends.

Is Independent Living The Right Choice For You?

4. How is your health (and the health of your spouse)?

It's important to consider your current and future health. For example, if you have a health condition that makes it difficult to stay active and will most likely worsen with time, it's good to consider your options carefully. It's also important to consider the health of your spouse if you are married.

Can you manage the activities of daily living, such as washing, showering, and eating? Can you manage your finances? Can you manage medications and doctor appointments? If you see needing only minor assistance with activities of daily living, independent living may be right for you.

What's the difference?

Credit Unions don't have customers, they have members. When a bank profits their shareholders profit. When a Credit Union profits, it's reinvested in membership. That means profits become higher interest rates on savings and lower rates on loans.

And switching is easy.
